

Congratulations!

Thank you for scheduling your appointment at Shenandoah Community Health, Women's Health! We are pleased that you have chosen us for your prenatal care and delivery. Our Obstetricians and Certified Nurse-Midwives work together to provide you with the best possible prenatal care and delivery experience.

A New OB appointment has been scheduled for you with a Certified Nurse-Midwife. This first appointment is a longer appointment to initiate all of your care, obtain a complete history and physical and get lab work done. You may be here at the office for several hours to complete these things; especially if you also have your first Ultrasound scheduled the same day.

- Please call us in advance if you are unable to keep this appointment. If you cancel this appointment, the next available appointment may be a few weeks to a month out.
- If you miss your New OB appointment, we will also cancel your Ultrasound and your second OB appointment (which will be with one of our doctors).
- Please arrive 15 minutes prior to your appointment time so we can get you registered and create your prenatal record. If you arrive late to your appointment, you may have to be rescheduled.
- Please do not bring more than 1 guest with you. Your guest will be asked to remain in the waiting room during the initial part of your New OB visit, but may be escorted back to be present for the remainder of the visit if you so desire.

You have received the following forms in this envelope; please use this checklist to ensure you bring the following back to the office with you for your New OB appointment:

- Consents Form (gives consent to receive services from Shenandoah Community Health)
- Authorization to Discuss Form (would give Shenandoah authorization to discuss information with persons listed)
- Patient Information Form (allows Shenandoah to get you registered and create your prenatal chart)
- Medical Information Forms (4 pages front and back)

Please call the office for any further questions.
