ShenCommHealth.com

Now Offering School-Based Behavioral Health Services at Widmyer Elementary!

Mental health *is* health so we're bringing care right to your school because healthy kids make successful students! Look for more information on your school's website, www.shencommhealth.com/school-based-health or talk to your school nurse for an enrollment packet to allow your child access to these convenient behavioral health services.

All students enrolled in the school-based health program are eligible to receive services regardless of insurance status. Shenandoah Community Health accepts most commercial insurance plans, including PEIA, as well as Medicaid, Medicare and offers a sliding fee discount program for those who qualify; finances are never a barrier to care at SCH.

Behavioral health services are provided by a licensed Psychiatric Mental Health Nurse Practitioner and are also available to faculty and staff of Widmyer Elementary.

School-Based Behavioral Health Hours:

Thursdays
8:30am - 12:00pm
