

Vaccine Availability for SCH Patients

Through Federal and State COVID-19 Vaccine Programs, SCH is now able to receive a limited supply of vaccine doses for administration to SCH patients and members of vulnerable populations within the community. Following current WV State guidelines, if you are eligible please call us to schedule to receive your vaccine at SCH 99 Tavern Road in Martinsburg. Patients will be asked pre-screening questions prior to scheduling.

Free

SCH will bill insurance for the administration of the vaccine. For patients with no insurance, an invoice will be submitted for the administrative fee to the HRSA Provider Relief Fund. There is no out-of-pocket charge to anyone wishing to receive a COVID-19 vaccine.

Safe & Effective

SCH supports all vaccines as the safest and most effective way to achieve community immunity.

Call us to schedule + 304.263.4999
